

EDI

Increase your efficiency by using process integration

Optimize the supply chain by using information logistics that enables you to track products.

Less paper

Reduce the daily deluge of paperwork. Receive your data directly in your local system or send it from there.

- ▶ Lower costs due to a reduced use of paper

Fast, secure, accurate

Put your trust in a fast, secure and accurate way to process integration.

- ▶ Faster and safer communication

Efficient processes

Optimize the supply chain by means of direct and fully automatic process support.

- ▶ Lower costs due to more efficient process support

Flexible implementation

Use various options (e.g. EDIFACT, ODETTE, VDA, bilateral) to satisfy content and technology requirements.

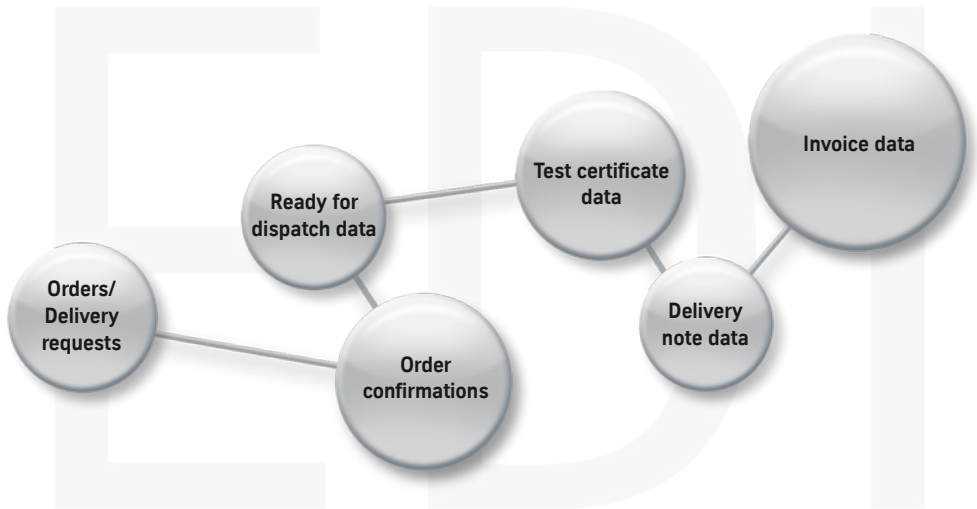

- ▶ Advantages by means of individual solutions and the latest technology
