

Customer Information regarding POP-regulation

Regulation (EU) 2019/1021

Steel
Packaging Steel

01.06.2020
Seite 1/1

The Regulation (EU) 2019/1021 regarding Persistent Organic Pollutants (POP) defines legal requirements (prohibitions as well as restrictions) for several long existing organic pollutants.

On the basis of the actually available information we confirm to our best knowledge that thyssenkrupp Rasselstein does not produce, apply or use any of the substances listed in Annexes I and II of POP-regulation.

For further information please contact our experts at reach.PackagingSteel@thyssenkrupp.com.

Yours sincerely

thyssenkrupp Rasselstein GmbH
