 Halle 33/36
 Halle 4
 Halle 6</p> |

At the locations Bochum-NO, Dortmund, DU-Süd, DU-Nord and BO "time slot corridors" are being used.

2) Booking of time slots

a) Booking via Internet

All service providers who have been cleared for the TISLOT-System of ThyssenKrupp Steel Europe AG are requested to book time slots via the Online-Tool, which can be accessed via the following link:
<https://tsm.transporeon.com>

Please book the routes for all locations (**Bochum, Kreuztal-Eichen, Kreuztal-Ferndorf, Duisburg-Nord, Duisburg-Süd und Dortmund**) directly in the „open bookings“ section („Offene Buchungen“) of the Online-Tool. There you can find all the information regarding the transports and you will be guided to the correct loading point automatically.

b) Booking via Hotline

All service providers who have not yet been cleared for the TISLOT-System have to book a time slot via the hotline (see below) of the given location.

3) Notification

- a) The booking of time slots at the particular locations does not substitute the established procedure of registering the shipment.

Booking a time slot does not substitute the special rules for the registry of night- and weekend-shipments of a particular loading point.

- b) The time slot corridors consist a period of 1 to 3 hours, where the trucks are loaded.
The trucks can arrive in the whole time slot corridors.
The trucks are loaded in the sequence of their arrival.

4) Contact information / Contact person
