

- ✓ Regional consortium for sustainable and sovereign electric mobility
- ✓ Regional and sustainable value chain
- ✓ Multidisciplinary technical approach
- ✓ Industrial and societal ambition

E-MOBI: A consortium of excellence

- **Decarbonizing mobility** : Elimination of rare-earth elements, use of recycled materials.
- **Industrial sovereignty** : A European supply chain from motor to inverter.
- Job transition and creation in the Hauts-de-France region.
- **Training and research** : 3 doctoral theses, skill transfers, and replicable innovations.

Co-funded by the European Union
